Letter of Recommendation for Internship Positions TO WHOM SO EVER IT MAY CONCERN

It is my pleasure to recommend **Mr Srikrishnan for “Research Internship”** at your esteemed Institution. I was his instructor for Robotics and Automation course during July-Nov. 2023 semester, and he consistently impressed me with his strong academic performance, intellectual curiosity, and dedication to learning. He earned the maximum grade “S” demonstrating a thorough understanding of the course material and the ability to apply that knowledge to complex problems.

Beyond the required work, the student showed a genuine interest in the subject matter. He actively sought additional resources to delve deeper into specific topics and frequently engaged me during office hours to clarify doubts and discuss different perspectives. This proactive approach to learning was commendable.

Mr Srikrishnan also excelled in problem-solving. He consistently approached challenging assignments with a well-structured and logical approach, often proposing original solutions that demonstrated thoughtful reasoning. He has also effectively collaborated with classmates on group projects, displaying strong communication and teamwork skills.

In conclusion, the student is outstanding with a strong foundation in robotics and automation domain, a demonstrated ability to think critically and solve problems, and a genuine passion for learning. I am confident that he will excel in his assignments and make valuable contributions to the field.

Hence, his candidature is strongly recommended, and I wish him success in all his future endeavors.

Please do not hesitate to contact me at msk@iiitdm.ac.in (Mobile 9444724955) should you require any further information.

(M. Sreekumar)
